## FULL STACK DEVELOPER

- Full Stack Developer with proven expertise in frontend technologies such as React, and backend development utilizing Node.js, Express, and MongoDB, adept at creating dynamic, responsive, and user-centric web applications.
- Committed to continuous learning and staying current with emerging technologies, demonstrating a strong ability to collaborate and contribute to impactful projects within team-oriented environments.

## KEY COMPETENCIES

**Technical Expertise:** JavaScript, React, Express, Node.js, MongoDB, Tailwind CSS, REST APIs, Python

**Full Stack Development:** Proficient in designing, optimizing, and scaling applications across both frontend and backend environments.

**Problem Solving and Innovation:** Enhancing application performance, automating processes, and improving user experiences.

## PROFESSIONAL EXPERIENCE

### Enterprise Cube LTD

Mar 2024 - Present

#### Associate Full Stack Developer

- Contributed to projects by engaging in both frontend and backend development utilizing the MERN stack (MongoDB, Express, React, Node.js).
- Developed and maintained responsive web applications, ensuring cross-browser compatibility and optimal performance while collaborating with the design team to implement dynamic, user-friendly interfaces.
- Designed and developed RESTful APIs using Express.js, integrating them with MongoDB to ensure efficient data management.

### Enterprise Cube LTD

Nov 2023 - Feb 2024

#### Front-End Intern

- Developed dynamic and responsive user interfaces utilizing the latest frontend technologies, with a strong emphasis on React and Redux.
- Collaborated closely with the design team to implement visually appealing and user-friendly web applications.

## EDUCATION

### Bachelor of Software Engineering 08/2021 -- 07/2025

Virtual University of Pakistan

### Intermediate of Computer Science 09/2019 -- 05/2021

Kips College

### Matric 07/2017 -- 05/2019

Avalon High School

## EXTRACURRICULAR ACTIVITIES

In my free time, i watch Movies, read books and enjoy watching humorous content on YouTube, which helps me unwind stay creative.

## PROJECTS

### Sales Person App – Full Stack Web Application

Tech Stack: React, Node.js, Express, MongoDB, Redux, Tailwind

- Developed a full-stack application enabling vendors to efficiently manage and book customer orders, streamlining the order booking process and minimizing manual tasks.
- Implemented features for managing customer information and order details, ensuring seamless real-time data synchronization between frontend and backend.

### Hotel Management System – Full Stack Web App

Tech Stack: React, Node.js, Express, MongoDB, Redux

- Designed and developed a hotel management system for automating room bookings, customer management, and service tracking.
- Built scalable RESTful APIs using Node.js and Express for seamless interaction between frontend and backend. Integrated MongoDB for efficient database management and Redux for state management,
